Week 4

#20 Going green to give Hong Kong a better future is easy

Skills/ Objectives: Reading

PART 1: Before you read...

Preparatory questions

1. We have been learning about different environmental issues this week. Have you thought about how we can save our environment by reducing plastic and food wastes?

Vocabulary

1. Generation (noun): a group of people who are about the same age within in a society
2. Consume (verb): to eat or drink
3. Cut down (verb): to reduce
4. Alternative (noun): another way that one can use instead of something else
5. Treasure (noun): valuable stuff

PART 2: Article

In this article, Kaya Guo and Zoë Leung suggest ways that people in Hong Kong can do to tackle the environmental problems in the city.

PART 3: Let's discuss!

1. Which suggestion from the article do you find the most useful?
2. What would you do from today to make a greener Hong Kong?

PART 4: Learn further

1. Waste Collectors and Recyclers

The website of Environmental Protection Department of the Hong Kong government provides a list of waste collectors and recyclers.
