

Life-Wide Learning: AAEPC Internship

This academic year, three AAEPC students successfully completed a 6-week internship at Ten Group (Hong Kong). Ten Group is the global market leader for lifestyle management concierge services.

The 6-week internship ran from November to December 2020. Fifteen AAEPC students applied for the internship and were interviewed by Ten. Three were finally chosen. The three students, Jeanne Kwok, Marissa Kariyawasam, and Haritha Pomileri gained invaluable experience being a real part of the Ten team, working closely with professionals and learning about the industry. Their duties included supporting daily operations, conducting research, and other administrative duties. They also went on an actual site visit which was one of the highlights of the whole internship.

After the internship, all three received very high praise from Ten regarding their language proficiency, their excellent communication skills and most of all their positive attitude and dedication to their work and colleagues at Ten. Great job!
