

Diya Sunwar

2025 Applied Psychology Graduate, studying Year 3 Bachelor of Social Sciences (Honours) in Psychology at City University of Hong Kong

Quite often you would be reminded that the paths you can take after high school are limited to the standard ideal pathway but being a part of UOWCHK shows that there are other roads you can take to get on the academic path you would like. The teachers have been supportive during my time here while also encouraging every step of the way. Another encouragement came from receiving an Outstanding Performance Award. I've learned a lot from my two years being here and am excited for the opportunities ahead.
