

LI Tsz Kwan Jaclyn -- 2025 Social Work Graduate, working as a Registered Social Worker at Caritas

Studying Social Work at UOWCHK equipped me with core values, professional knowledge, and practical skills for my career as a registered social worker. Supportive lecturers used real-life cases, provided constructive feedback, and guided us through fieldwork and career planning. Serving as a student representative enhanced my leadership and communication skills. Campus life, including orientation camps and service-learning projects, enriched my experience and built lasting friendships. Today, I work as a registered social worker at Caritas, one of Hong Kong's largest NGOs.
