

Wong Hau Lam --2025 Applied Psychology Graduate, studying Year 3 Bachelor of Social Sciences (Honours) in Psychology at City University of Hong Kong

The UOWCHK prepared me for further study in Psychology by providing a solid foundation in critical thinking and research methodologies. Engaging with diverse psychological concepts enhanced my understanding of human behavior and mental processes. Additionally, numerous collaborative projects and opportunities were available that fostered teamwork and communication skills. Through assignments focused on empirical studies, I developed strong analytical skills and the ability to effectively interpret data. I am grateful that I met supportive teachers throughout these two years, who gave detailed suggestions for my future study paths. They are full of warmth and even helped me to analyze the pros and cons of different study programs.
