## Posters Assignment Display @ Sung Wang Toi MTR (CGE13215 course)

Students took **CGE13215 Nature and Conservation in Hong Kong** in semester A 2022/23 had two field trips at Pak Ngan Heung Fung Shui Woods @ Lantau Island. During the field trips, they applied their knowledge learnt in the lessons, used the field work skills to measure the tree density and environmental parameters. In addition, they had to design posters to promote the conservation of local species there. The posters are now displayed at Sung Wang Toi MTR Community Art Gallery.

*Do drop by and appreciate their works!*

Special thanks to Wilson and Katie (both ASCCIMP students) for their assistance.
