## Visit to Sustainability Gallery @ HKBU

Faculty of Science and Technology had organized a visit to Sustainability Gallery on 7 October 2021. 15 students from Year 2 Associate of Science in Environmental Studies joined this activity. This visit was led by Judy KIU.

Sustainability Gallery (S Gallery) is one of the key public education projects of "Institute of Bioresource and Agriculture" (IBA). Supplement with an interesting spaceship astronaut training story, S Gallery is furnished with advanced multimedia technologies (e.g. 4D, AR) to showcase exhibitions of biological resources, organic agriculture and sustainable living, which allows visitors to gain knowledge by an interactive approach. After the visit, students are encouraged to reflect on the problems of contemporary lifestyle and live sustainability.
