# Associate of Science in Data Analytics and Management

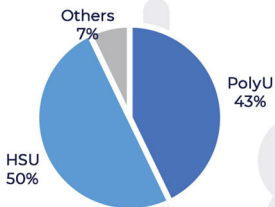

Part of  
UNIVERSITY  
OF WOLLONGONG  
AUSTRALIA

## Introduction

This programme builds up students with a good foundation for academic development in working with big data and informed business decisions. Students will learn data analytics, sample survey, statistics, economics, management, financial accounting, as well as computer programming, which are essential for further study in data science and business management. Students will also be equipped with the knowledge and experience for pursuing further studies or entering into job market as associate professionals.

## Further Studies
